Rev. J. B. Middleton, who has been stationed at Greenville for the past year, is his successor.

The Erie Observer hits the nail squarely on the head when it says: "A man who owes several years subscription on a newspaper, and asks the postmaster to send it back 'refused,' would put far less value on his money than the man who, when taking up a church collection, in order to steal the small change."

We tender our sympathies to Mr. A. B. Williams, editor of the Greenville News, in the death of his brother, Mr. E. D. Williams, which occurred at his father's residence in Baltimore on the 5th inst. Mr. Williams was 25 years old, and had been associated with his brother in the publication of the News for several years past. Recently his health began to fail, and he went to Baltimore to visit his relatives, hoping to recuperate, but he gradually grew worse until death claimed him.

Messrs. W. E. Breazeale, R. H. Burris, C. L. Dean and V. H. Watson, all of this County, have been elected officers of the Philosophical Society of Furman University, Greenville, S. C., for the ensuing term. Anderson County boys always stand well wherever they go.

We were pleased to have a call last Monday from our old friend and former fellow-citizen, Mr. W. M. Wilcox, of Elberton, Ga. He came over with his family to visit relatives in the city. Mr. Wilcox has many friends in Anderson who are always glad to see him in our midst.

A young friend remarked in our presence the other day that he had been absent from his Sunday School only one time during the past ten years, and he would have been present that time had he been in the city. We doubt if there is another young man in Anderson who can say the same thing.

Mr. Edward M. Anderson died at the residence of his mother, in this city, last Monday morning, after an illness of about five weeks, aged 35 years. His remains were interred in the Baptist Cemetery on Monday afternoon, Rev. T. P. Bell conducting the funeral services. He leaves a wife and four children.

"No, ma'am!" exclaimed the provoked young man the other evening to a young lady, who, on the refusal of her favorite, had asked him to accompany her to a party. "I don't play second fiddle to any one!" "No one asked you to play second fiddle," replied the young lady with a smile. "I only asked you to be my beau."

Mr. M. B. Arnstein left the city last Monday morning for Charleston, where he will attend the session of the Grand Chapter. From Charleston he will go to New York to purchase his Spring stock of goods. He says he will buy the largest and handsomest stock of goods ever brought to Anderson. He will be absent several weeks.

Seneca Free Press: "The young ladies of the Anderson Female College are getting up subscriptions, in the hopes that they will soon be able to issue a paper in the interest of their school. Several of the boys in Seneca have received a postal, written in a dainty little hand, asking aid. They have cheerfully responded—'who wouldn't!'"

An exchange says: "Give young men fortune without education, and at least one half will go down to the tomb of oblivion, peopled with rain. Give them an education and they will be a fortune to themselves and their country. It is an inheritance worth more than gold, for it buys true honor; they can never spend or lose it. Through life it ever proves a friend and in death a consolation."

Rewards are now offered for the apprehension and delivery to the Sheriff of a criminal, and not for the apprehension and conviction, as formerly offered. The necessity for conviction to have been secured before the reward is paid no longer exists, hence detectives, constables and others will find the arrest of accused parties for whom rewards have been offered not so troublesome as heretofore.

The City Council have positively determined to add the penalty to all taxes not paid within the time prescribed by law, that is to say during the present month. We mildly suggest to all parties who have the money to pay up at once, as at the present rate of collection there will be a grand rush about the closing week of the month, and it will probably be greatly inconvenient, if not impossible, for all to pay at that time.

The Elberton, Ga., Leader compliments Hon. H. G. Scudder's speech upon prohibition, delivered in that town on Tuesday of last week, very highly, and has this to say about it: "Without possible political motives Hon. H. G. Scudder came among us from another State in the interest of prohibition. The prohibitionists of Elberton return thanks to him for his eminent services. South Carolina ought to be proud of her illustrious son."

We received a call last Saturday from Mr. T. F. McCandless, the polite and gentlemanly Passenger Agent of the Atlanta & New Orleans Short Line, who was in the city in the interest of his route. Write to Mr. McCandless, at Atlanta, Ga., or call upon Mr. Smith and you can get any information you may desire.

The large advertisement of Mr. A. Lesser in this issue will attract the attention of our readers. Everybody should read it carefully, as he is offering bargains in every class of goods. He wants to make room for his Spring goods. Mr. Lesser is an energetic, progressive merchant, and is determined not to keep his "light hid under a bushel." Encouraged by the liberal patronage bestowed upon him in the past, he has decided to carry a much larger stock in the future, and will make it to the interest of every person in the County to buy goods of him. Be sure to call at Mr. Lesser's store when you need anything in his line.

A Small Cyclone. HONETA PATI, S. C., Feb. 10, 1885. Editors Intelligencer: Yesterday evening at nearly 6 o'clock (standard time) a small cyclone formed, apparently in the neighborhood and passed in a Northwesterly direction, tearing down timber, overturning logs, brush and fencing, and in some places sweeping the ground clean and uprooting small bushes. I had just gotten home from Lowndesville, and was standing in my back door, and saw it, I suppose, at the very start. It was a black rack, very near the ground, between R. L. W. Tribble's house, where Mr. David Humphreys lives, and John Mattison's, on same place, and looked to me more like a huge serpent writhing in death, or the black smoke from a burning heap, driven by the wind, than anything I can

think of. It crossed the Railroad in front of Mr. Tribble's house, swept through my penland and on through my pasture in a narrow streak, at first not more than two rods wide and spreading to probably one hundred yards. But slight damage is done here, but further on through Capt. J. J. Sullivan's, Wm. Mattison's, Mose Davis' and to Joel Kay's, I have just heard of considerable destruction to timber and fencing, the largest board and timber trees not being able to stand before it. Have heard of no houses being touched by it, nor of any one being hurt. If I get news of any casualties will telegraph you in the morning.

Yours, &c., M. McGEE.

Mr. Charles Eden, of Trinidad, Colorado, says: Seeing certificates of the wonderful cures made by Brewer's Lung Restorer, I was induced to try it on my little son, who was troubled with lung or throat affection, pronounced by one physician consumption. I acted wonderfully on him, and by the time he had taken one bottle of it the cough disappeared. I am now on a visit to my parents in Georgia, but will return in a few days to my home and will take some of the Lung Restorer with me. 39

SCROFULA. Are any members of your family thus afflicted? Have they scrofulous swellings of the glands? Have they enlarged sinuses or ulcers? If so, and it should be neglected, the peculiar taint or poison, may deposit itself in the substance of the lungs, producing consumption. Look well to the condition of your family, and if thus afflicted, give the proper remedy without delay. Buy that which makes absolute cures in the shortest space of time. The unerring finger of public opinion points to B. B. B. as the most wonderful remedy for scrofula ever known. You need not take our word; you need not know our names—merit is all you seek. Ask your neighbors, ask your druggist, ask or write to those who give their certificates of cures, and you will find that B. B. B. is the quickest and most perfect Blood Purifier ever before known. 30-4

No other medicine is so reliable as Ayer's Cherry Pectoral for colds, coughs, and all derangements of the respiratory organs tending toward consumption. In all ordinary cases it is a certain cure, and it affords rare relief for the asthmatic and consumptive, even in advanced stages of disease. 30-4

If a well be poisoned, we be to those who drink the water. It is worse to poison the fountain of life for one's self, and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla restores the blood, the vital stream, and restores appetite, strength and health. 30-4

Scrofula. I have hereditary scrofula broken out on me for eight years. My mother and sister died with it, and I am apprehending that I would go among members of the family had, had disappeared of life. The treatment of mercury and potash seemed to aggravate instead of curing the disease. In this condition I was pressed to use Swift's Specific. After taking six bottles the fearful ulcers on my neck and arms disappeared and the source of the disease was cured. I am now well. Had I taken S. S. S. at first, I would have been a well man long ago.

FRANK GLITCHER, Danville, Ky. Oct. 18, 1884.

Eczema. I was affected for nearly four years with eczema. The doctors called it at first eczema. I was treated by physicians. I was cured by Swift's Specific. I used about thirty bottles and have had no trouble with it since. I refused to take it, even after it was recommended to me, for some time—such was my prejudice to the name of it; but having tried it myself, I now believe it is the best blood purifier in all my knowledge. It did another thing for me. I had suffered from piles for many years. Since taking this medicine I have been relieved, and believe it cured me. R. H. JONES, Cartersville, Ga., August 23, 1884.

My daughter, seven years old, has been afflicted with eczema for two years, and after trying other remedies in vain, I gave her Swift's Specific (S. S. S.), and one and a half bottles cured her sound and well. It is the best blood remedy in the country.

# A CARD.

IN thanking our many friends, and the public generally, for the liberal patronage given us last Fall, I wish to say a few words in reference to our policy during the coming Spring.

We have established what we call "THE ONE PRICE CASH SYSTEM." We buy our Goods in large quantities, and by paying cash for them get the advantage of all discounts, and are therefore enabled to sell at the very lowest possible figures. In order to do this we are obliged to sell STRICTLY FOR CASH.

We know that men who are perfectly good for their contracts sometimes get out of money, and while we appreciate their kindness in offering to trade with us, and would be glad to accommodate them in any other way, yet in order to carry out our system, and keep our Stock full in every Department, we will be forced to decline to sell even them on time. None can fail to see that this plan will work to the mutual advantage both of ourselves and our friends; for, as we take no risks, we can, as a matter of course, afford to sell cheaper than we could otherwise.

We would also remind the good people of this City and County that anything a gentleman needs in the way of Wearing Apparel can always be found at our Establishment; and as the Spring approaches, and men usually like to look their best in that Season, we shall pay special and particular attention to latest styles.

Very truly,
